DETAILED ACTION

Allowable Subject Matter

Claims 1-53 are allowed.

The following is an examiner's statement of reasons for allowance: the closest prior art reference, Yoshida et al (US Patent 5,502,803, hereinafter Yoshida) teaches a gesture-based text editing system similar to the subject matter of independent claims 1 and 32 of the instant application. However, Yoshida fails to teach or fairly suggest the specific use of a staircase object and an alphanumeric character adjacent to said staircase object suitable for creating a heading when drawn on a screen, as in claim 1. Furthermore, Yoshida fails to teach the specific margin-creating graphic entry of claim 32, the entry being drawn specifically vertically downward to the topmost line of a text object, and the subsequent creation of a moveable machine-rendered margin indicator. A further search failed to produce any relevant results..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
